

2023 Highfields PREA Annual Report

What is PREA?

The Prison Rape Elimination Act (PREA) was passed unanimously in Congress in 2003. The purpose of the act is to “provide for the analysis of the incidence and effects of prison rape in federal, state, and local institutions and to provide information, resources, recommendations and funding to protect individuals from prison rape.” PREA applies to adult prisons, jails, juvenile residential treatment facilities and detentions.

Highfields makes every effort to implement PREA and prevent sexual assault/rape of clients in our care; to prevent incidents of sexual abuse and sexual harassment; and to take prompt, effective, and compassionate action if allegations of sexual abuse or harassment are made.

The Act also created the National Prison Rape Elimination Commission and charged it with drafting standards for eliminating prison rape. In accordance with Standard 115.387; (a) The agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. (b) The agency shall aggregate the incident-based sexual abuse data at least annually. (c) The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice. (d) The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. (e) The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its residents. (f) Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

The following data was collected between January 1, 2023, through December 31, 2023. It is available to the public on our Highfields website at Highfields.org
